REACTIVE GLAZE
2026

What is Reactive Glaze?

Think of reactive glaze as a little bit of magic in the kiln. As the heat climbs, minerals and oxides flow, collide, and react—painting each piece with unexpected streaks, shifting colors, darkened rims, and organic speckles. No two results are ever the same!

Introducing our 2026 reactive glazes—14 custom colours that bring depth and movement to every piece. With over 100 shapes across our De Terra, Mirage, and Linea collections, these glazes offer endless possibilities for creating a table that is uniquely yours.
